

## Food Safety Policy

Sicomo S.A.L. is a paper board recycling mill located in the green Bekaa valley Lebanon. Established in 1974 to provide grey board for the local market, that is famous for its book binding industry. Over the years, Sicomo S.A.L. developed various products such as white top and PET laminated boards to cater for the neighboring countries. During the last ten years, heavy emphasis was put on the PET laminated board, especially for the food packaging industry reaching Europe and North Africa.

Sicomo S.A.L. is committed to offer safe food packaging products that meet customers' needs and expectations while conforming to applicable food safety requirements including statutory and regulatory requirements.

The Management of Sicomo S.A.L is committed to the food safety management system, based on the requirements of the international standard ISO 22000:2018 which addresses internal and external communication. This system enhances the continuous improvement and effectiveness of Sicomo S.A.L and promotes the achievement of the objectives that are well defined and recorded.

The success and achievement of this policy involves all staff being individually responsible for the safety of the product they deliver to customers. Sicomo S.A.L ensures that all personnel have access to, are familiar with, and work to the published procedures and instructions that fully comply with this international standard. Therefore, Sicomo S.A.L. is committed to ensure that this policy is communicated, understood, and implemented at all concerned levels.

This Food Safety Policy and objectives are reviewed, if and when required, during the management review meetings.
